

# New Mexico Equal Employment Opportunity and Diversity Council

## 24th Annual Equal Employment Opportunity & Diversity Seminar

*In our increasingly global and varied world, a diverse workforce is not just the right thing to do, it is the right business thing to do. Diversity is not about numerical quotas, it is about recognizing and creating value while achieving results - driven business objectives. What strategies and techniques can EEO, AA, Diversity, and other HR professionals use to create peak-performing employees and teams who can survive economic pressures, marketplace demands, and changing client expectations? This seminar will include best practices, strategies, and peer-to-peer networking for effective recruitment, training, empowerment and retention at all levels of your organization.*

August 5, 2009  
**UNM Continuing  
Education Center**
